Gas Safe registration number: 549714

06 January 2022

Dear Colin Bloor,

### Your Gas Safe registration has been renewed

Thank you for renewing your Gas Safe registration for another year. Your registration certificate and licence card are enclosed for each of the engineers assigned to your registered business. Licence cards for any engineers whose qualifications have not been updated, will not be enclosed. Please contact us to order a new card as soon as these are reinstated. Please always remember to show your licence card to your customers.

### Recycle your old licence card

We're now able to recycle your old licence card. Simply return it to us using the enclosed free-post envelope and we'll recycle it, safely and securely.

As a registered business, you automatically have access to a range of support and information, including:

- Increased business profile. Gas Safe Register receives almost 1 million website queries every year from potential customers looking for gas businesses to carry out work - now that you are registered, they will be able to find you (unless you have chosen to not to be displayed on the website).
- Access to our team of technical experts, all experienced and qualified gas engineers like you, who are there to help. Just email [technical@gassaferegister.co.uk](mailto:technical@gassaferegister.co.uk) or call 0800 408 5577 and press option 1.
- Your online account, where you can manage your registration, and view and download the latest Technical Bulletins, Industry Standard Updates and Safety Alerts whenever you want to.
- Quick and easy notification. You can notify work under Building Regulations, as well as notifying the installation of other gas appliances where this is not a requirement but has been requested by your customers - it's an easy 'added value' service for your customers.
